ANTIOCH PLANS BIG ARMISTICE DAY OBSERVANCE

Legion Members, Auxiliary,
General Public to Participate
in Ceremonies

Led by the American Legionnaires of the community, Antioch citizens and school children will observe Armistice Day with an all day program Wednesday.

Antiochans, following the silent tribute to the World War dead since the original armistice, November 11, 1918, will face east in silent prayer at 11 o'clock and the firing squad of the Antioch Legion post will fire a salute in Civic Center Park in honor of those who made the supreme sacrifice in the service of their country.

A Community Affair

In addition to the local legionnaires, the Legion Auxiliary, the public schools and the general public are to have a hand in the program, according to an announcement made today by Commander James Waters.

The Rev. J. E. Charles of St. Ignace's Episcopal church will give the principal speech of the day in the Antioch township high school during the afternoon part of the program.

The following is the program to be climaxed by a free dance to be held at the Danish Hall in the evening at 8:30 o'clock:

The Day's Program

10:30 a. m.—Legion and Firemen assemble at Legion hall for march to Civic Center park.

11:00 a. m.—Fire salute, taps, return to Legion hall.

12:30 p. m.—Free dinner at Danish hall, admission by members of their 1935 membership card.

1:45 p. m.—Assembling at high school gym, Legion members, Auxiliary members, high school students and pupils of the 6th, 7th and 8th grades, and the general public.

The program arranged for the high school will be conducted as follows: Invocation—Frank Barber, chaplain; Band—march, under direction of Hans Von Howede; Presentation of Legion & Auxiliary colors; National Anthem; Preamble to the Constitution by Commander Waters; Gold Star Mother Service; Address, Rev. Charles; In Memory of departed comrades, Dr. L. J. Zimmerman; Retirement of colors; Conclusion, Commander Waters.

Lake County Towns Turn Clocks Back; Follow Chicagoans

Chicago voters took the tinker out of the time question at the Cook County polls Tuesday where they rejected the referendum to keep the Windy City on Eastern Standard time.

Waukegan and other Lake county communities will set their clocks back to the time used in Antioch and the rural area on Sunday morning.

The Chicago electorate assured this by a vote of more than 2 to 1 requesting the Chicago City council to restore the old system of central standard time with daylight saving in the summer months.

Waukegan and other Lake county communities awaited the decision of the Chicago voters before experimenting further with the time business. After Chicago adopted eastern time last March 1, the Waukegan councilmen, arguing that the county seat's time should follow that of Chicago as conflicting schedules worked a hardship on business transactions "with the big city."

Chicago voters disapproved "year-around daylight time" by a 525,917 to 293,583 vote; disapproved Central standard time without daylight time in the summer 501,260 to 291,746. The system that has been followed in Antioch for several years was approved 631,469 to 275,975.

Fox Laker Awarded \$3,000 from Accident

Ignatz Lukas of Fox Lake was awarded a jury verdict for \$5,000 on a default by George Maleck, for injuries he suffered in an automobile accident on September 10, 1930, at the Fox Lake road about a mile south of Antioch.

The case was ended Tuesday after Lukas has sued for \$20,000. According to testimony, Lukas was driving an automobile on Fox Lake road when an automobile operated by Maleck hit him. He was seriously injured.

AREN'T WE ALL?

CITIZENS URGED TO PLAN 4-LANE ROAD TO ANTIOCH

Milwaukee Ave. Improvement
Chairman to Discuss
Plans Here Friday Eve.

Mayor A. E. Seuter of Libertyville, temporary chairman of the Milwaukee Avenue Improvement association, will explain organization plans in Antioch tomorrow night at 8 o'clock in the movement to widen the highway from Half Day to the state line north of Antioch.

Mayor George B. Bartlett of Antioch urges all citizens of the community to be present in the village hall tomorrow night to hear Mayor Seuter's message. The Antioch mayor points out that the program of the newly formed association is of vital interest to the welfare of the community and to the business of local merchants.

Progressive businessmen and civic leaders along the Milwaukee avenue route in Lake County at a preliminary meeting declare that the present comparatively narrow pavement from Half Day tends to decrease traffic into communities along the route, thereby reducing transient trade which they could expect with a wider roadway.

The present narrow pavement was likewise declared a traffic hazard, especially during the summer season.

The preliminary meeting recently was attended by representatives from Antioch, Grayslake, Lake Villa and Libertyville who are urging a united representation from all municipalities through which Milwaukee avenue passes.

The association plans to circulate petitions throughout the section asking that the state department aid in financing and widening the proposed four-lane pavement.

T. B. SANITARIUM TAX GIVEN OKEH

Lake Co. Voters Approve
Levy on Selves for Tuberculosis Care

The proposition of levying a tax not to exceed 15 cents on the \$100 property valuation in Lake county for the purpose of establishing and maintaining a tuberculosis hospital was approved by the voters on the basis of incomplete returns tabulated this morning.

It was apparent that Waukegan, Lake Forest and Highland Park voted in favor of the tax, while some of the rural precincts objected to it by a slight margin.

Only a small portion of the 49,000 Lake county voters cast the small ballot on the tax proposition.

Farmers Stage Show

Warren township high school in Guerne will be the scene of a home talent program sponsored by the Lake County home bureau Saturday evening at 8 o'clock, it is announced by Mrs. Robert Gillespie, chairman of the county recreation projects.

THREATEN QUIZ ON "BALLOT SHORTAGE"

O. K., Says Clerk Alford

County Clerk Russ Alford was not much perturbed over the reported shortage of ballots in several Lake county precincts Tuesday.

The fact is the county clerk had fortified himself against such an emergency, in case it actually developed, by having on hand in his office many thousands of extra ballots, covering every one of the 75 precincts in the county.

Alford is the lone Democrat holding office in a strongly Republican county. Never has he stated that he did not trust his Republican brethren—nevertheless, the precautions he took in handling the ballot supply indicated plainly that he had "anticipations." Right here is a splendid chance for some astute Democrat to remark that the county clerk out-smarted somebody.

Alford Followed Law

In placing his order for the printing of the ballots Clerk Alford followed the law to the letter—twice as many ballots as there were voters in the preceding general election. In addition he ordered a large supply of extra ballots to be held in reserve. Following the report on the unprecedented registration, extra ballots were printed for a few precincts which brought them up to legal requirements. On election day extra ballots were delivered from his office to precincts where a shortage seemed likely to occur or where requests were made.

The large number of unregistered voters who were sworn in was entirely unforeseen and did cause genuine alarm over the ballot situation in a few precincts. In such precincts ballots were supplied as soon as possible, and the News, after making diligent inquiry has heard of no case where a voter was deprived of his right to vote because there was no ballot for him to mark.

Truth About Zion

One such reported shortage emanating from a Zion precinct was, upon investigation by the News, found to be without foundation. The number of unregistered voters there seemed likely to exhaust the ballot supply, and City Clerk John D. Luce, as a favor to the election board, called the clerk's office. The ballots were forthcoming.

"There was a misstatement of fact in this case," Clerk Luce said. "I did not call the sheriff's office, as reported; and I volunteered to telephone Alford's office because I was sitting right by the phone."

When told today that demand had been made that State's Attorney Mason impanel a grand jury to investigate the "withholding of ballots," Alford said he would welcome such investigation.

Sequoia Instructor Heads State Group of Cafe Directors

Mrs. Ruby Richey, a member of the faculty at the Antioch township high school, was elected chairman of the Illinois Home Economic Conference at the annual meeting of the group in Quincy Saturday.

Mrs. Richey attended the conference in conjunction with the Illinois Vocational Home Making Teachers association of which she is a member. She returned to Antioch Saturday evening.

LAKES PROJECT FOR STATE PARK NEARS REALITY

Definite Action on Start of
2,600-Acre Playground—
Expected Soon

Dreams in the Lakes Region of a state park are to become a reality with the acquisition of 2,600 acres of swampy land, the pending establishment of a CCC camp and a federal grant.

Definite action on the start of the project is expected soon. At least three years will be required for its completion.

This is revealed by a survey of the Lakes Region in the possession of Lieut. Ludwig Gumz, aid of Acting Director Charles P. Casey of the department of conservation, who is co-operating in the plan which originated with the Chicago regional planning commission.

The project, when realized, is destined to become the playground of the Middle West and a mecca for motorists who seek a recreation center.

To Build Beaches

Beaches will be built up along the chain of lakes and a large boathouse is to be constructed at Grass lake.

The Lake county board in 1935 decided to the state 1,400 acres in the Lakes Region for use as a state park. Since that time Lieut. Gumz has contacted private individuals who have given over to the project 1,200 acres of their swamp land.

When fully completed a 40-mile boat trip from McHenry through Pistakee Bay, Nippersink Lake, Fox Lake, Grass Lake, Lake Marie, Channel Lake and other lakes and back to the Fox river will be one of the summer pleasures offered to vacationists.

NIMRODS SWARM IN REGION FOR DUCKS

6,000 Shotguns Engage in
Annual Bombardment to
Open Hunting Season

More than 6,000 shotguns blazed away Sunday morning in the Lakes Region to open the annual 30-day hunting season on waterfowl.

Hundreds of hunters swarmed into the region with the majority of them congregating at Grass and Fox lakes, considered by experts the pick of the waterfowl hunting grounds in northern Illinois.

Shot fell like hail on all sides of the lake after the season was officially opened at 7 a. m., chasing your reporter from a pier at Point Comfort on Fox Lake into a nearby screened porch which was later blasted by a spray of leaden pellets.

At Grass lake hunters were settled in their previously arranged blinds as early as 4 a. m., waiting for the sound of the siren from Blarney Island which announced that it was legal to fire.

Rowboats, scows, rafts, and other craft were in great demand in the Lakes Region and a serious shortage was reported although many resort owners hauled boats from adjoining districts to meet the anticipated demand.

Oh, the hunting? Yes, migratory birds have been thicker than ever before this year and the sharp-eyed nimrods bagged their limit in a short shooting period. And no one was reported killed—not even a little!

Wins Muskie Prize

Art Golden returned from the northern fishing grounds Friday with the prize for hooking the largest muskie this year. The fish measured 47 inches in length and was taken from the Manitowish River. He was accompanied by George Hauf and O. Tigner, both of Chicago.

Antioch Fair Winner Enters Stock Show

An Aberdeen-Angus calf which brought home the blue ribbon of the Antioch Country Fair recently for William G. Greenleaf of Libertyville has been entered at the coming International Live Stock exhibition in Chicago.

Mrs. William Wipper of St. Paul, Minn., spent the past three weeks visiting with her sister, Anna Kelly and her two daughters, Mrs. Frank Goggins of Half Day and Mrs. V. L. Schaeffer of Grayslake.

Roosevelt Gets 46 States; GOP Holds Lake County

ANTIOCH, LIKE MAINE, REMAINS IN GOP COLUMN

HORNER, STATE DEMOCRATS GET 600,000 MARGIN

Republicans Capture Lake
Co. to Retain 5 Court
House Posts

Lake County Republicanism withstood the national Democratic tidal wave by returning all the Old Guard county officers back for four year terms.

With a total vote leaning toward a new record, the Republican candidates were given majorities ranging from 3,500 to 6,500 in the unofficial returns from 71 of the 75 precincts.

A record of 1,568 ballots were cast in Antioch township which followed the lead of Maine. In precinct one the totals were 722 ballots cast with 325 straight Republican to 192 Democratic. Precinct two registered 714 voters who marked 326 straight Republican ballots to 117 Democratic. In the third precinct where 132 ballots were cast, the straights numbered 46 for the Old Guard and 39 for the Democrats, but the split voting gave Roosevelt the precinct, 62 to 61.

State's Attorney Charles E. Mason in the 68 precincts reported received 26,868 as against 21,965 for Jack Bairstow.

Coroner John L. Taylor led the county ticket with a total of 27,286. His opponent on the Democratic ticket, Dr. B. D. Lemery, tallied 20,880.

In the race for county recorder, Howard L. Scott was returned to office with a lead of 26,469 votes to 20,956 for David Van Patten, the Democratic candidate.

Auditor Robert J. Pearsall polled 25,977 votes for reelection compared to 21,732 for Edward McDermott.

Circuit Clerk L. J. Wilmot was out in front with 26,662 votes to 20,641 for Stephen J. Drury.

Although the avalanche of Democratic votes throughout the state made (continued on page 5)

Antiochans Attend School Monday for Education Program

As their part in the observance of American Education Week, members of the Antioch Grade school Parent-Teacher association have united with the High School Parent-Teacher Forum in sponsoring an open meeting for residents of the community in Antioch Township high school auditorium Monday evening.

Mrs. Laura Hughes Lunde of the League of Women Voters will deliver the main address on the program. Her subject is: "Legislation for Illinois Schools."

Dr. G. W. Jensen, president of the Antioch Men's club, urges that all the members of this civic organization be in attendance and is cooperating with the educational groups to make the meeting one of the largest of its kind.

American Education Week, sponsored by the National Education association in cooperation with the U. S. Office of Education and the American Legion, holds the 16th annual observance during the week of November 9 to 15.

The parent-teacher groups have extended an invitation to all members of the community to join in the celebration Monday evening.

Principal R. E. Clabaugh announces that Tuesday has been set aside at the Antioch Grade school for the annual open house day, or visitation day, for residents of the community to see "behind the schoolhouse walls." Classes will be conducted as usual and citizens are urged to "drop into the schoolhouse" to see the education machinery in action.

Hallowe'en Throng Enjoys Wonderful Time at Anderson's

One of the largest throngs ever assembled at Anderson's at Petite Lake attended the Hallowe'en party given by Mr. and Mrs. Anderson Saturday night. Among the 200 attendants many were masked and all enjoyed an evening of fun and entertainment.

Mr. and Mrs. John Van Patten of Chetek, Wis., spent the past week visiting with Mr. Van Patten's sister, Mrs. Erma Powles and other relatives in Antioch.

As Maine goes—so goes Vermont and Lake County—and Antioch! That is just about all the story of the Republican political activities at the nation's polls Tuesday in the election drama that climaxed the Roosevelt landslide to give the New Deal Democratic standard-bearer an overwhelming popular vote plurality of 11 million.

President Roosevelt carried every state in the union except Maine and Vermont to pile up 523 electoral votes to 8 for Governor Landon, the G. O. P. favorite. Antioch favored Landon 967 to 545, while Lake County gave the Republican 2,200 advantage over Roosevelt.

President Roosevelt's lead over the Kansas swelled beyond the 600,000 majority mark in Illinois and made certain of every statehouse administrative office contested to remain Democratic.

Democrats Avalanche State

Governor Henry Horner and all his runningmates, as well as U. S. Senator James Hamilton Lewis, won by margins exceeding half a million votes. This is the fourth time Illinois entered the Democratic column since the Civil War and the first time in state history a Democratic administration was re-elected.

The potency of the Roosevelt victory march was indicated in the home states of the leading candidates and spokesmen of the Republican party. Any lingering hope that Gov. Landon might have saved his home state of Kansas was dissipated this morning as returns continued to give the Democratic candidate the lead in addition to placing a Democrat in the Kansas gubernatorial chair. Kansas joined both of Col. Frank Knox's home states, New Hampshire and Illinois, in the Roosevelt column.

Grand Rapids, Sen. Arthur H. Vandenberg's home city, returned a majority of about 7,500 for President Roosevelt with his state of Michigan going Democratic by 300,000 votes.

More New Deal Senators

The Roosevelt-Democratic-New Deal sweep was universal with at least a half-dozen new Democratic senators voted into the upper branch of Congress. The new Senate will possibly contain 75 Democrats, 18 Republicans, two Farm-Laborites and one Progressive. In the house, election returns indicate that the Democrats will outnumber their present quota of 308 and the Republicans will dwindle below their present membership of 104.

Among the New Deal critics the people failed to support are: Senators, L. J. Dickinson of Iowa, Daniel Hastings of Delaware, J. H. Metcalf of Rhode Island, W. W. Barbour of New Jersey, and R. D. Carey of Wyoming. Veteran Senator William E. Borah, an Idaho institution, continued his unceasing victory and Sen. Arthur Capner "skinned" by in Kansas. Sen. George W. Norris of Nebraska, the "Okey New Deal Republican," was safely re-elected.

Greatest Since Jackson

American history indicates that the Roosevelt re-election sweep is comparable only to that of Andrew Jackson, who is the only man in history who had an equally overwhelming popular appeal and popular victory. Democrats wrecked Republican strongholds in Pennsylvania, New Jersey, Connecticut and California.

Normally Republican downstate Illinois piled up overwhelming margins for Gov. Horner over C. Wayland Brooks, his Republican opponent. Lake County, however, remained true to the Old Guard, and giving Brooks a lead of 6,000 counters.

William J. Stratton, for secretary of state, who was swamped by Secretary of State Edward J. Hughes in the state totals, won his own county by 5,700 votes.

Church Wins Again

Cong. Ralph E. Church, Evanston Republican, was re-elected to represent the 10th congressional district and was given a Lake County lead of 6,600 votes over Charles J. Wightman of Grayslake. Sen. Ray Paddock of Round Lake was re-elected to the state senate by piling up a strong lead in Boone and McHenry counties over Leo Dailey of Waukegan, and adding to his total in Lake county.

160,000 More Electrified Farms

According to Charles W. Kellogg, President of the Edison Electric Institute, the miles of rural lines being built by the electric light and power companies this year are almost twice the number built in 1935.

Nearly 100,000 rural customers are expected to take electricity from these new lines, and 60,000 customers will be added to existing lines. The average cost of the lines, including meters, transformers, etc., is about \$1,250 per mile.

This should take some of the wind out of the sails of those who claim that the private electric industry isn't interested in advancing farm electrification. The truth of the matter is that the industry is just as eager as the farmers themselves, or the critical politicians, to bring the blessings of power to a larger part of the nation's farmers. But there are difficult problems involved that can't be worked out in a minute.

For instance, the principal cost factor is charges on investment. This year's figures show that the combined investment of utility and customer averages \$476 to get power to a farmer whose average bill for current consumed, in areas not dominated by irrigation pumping, is about \$4 per month. It is obvious that in many parts of the country economic conditions make it impossible to rapidly extend lines under these circumstances.

Yet the power industry is working constantly on the problem, and it is going the limit in building new rural lines. It is cooperating to the fullest extent with the farmer. And the result is that we are gradually attaining rural electrification on a sound basis—on the basis of self-supporting private investments, not government subsidies charged to taxpayers.

The National Human Barbecue

In the last 12 months, approximately 10,000 persons have been burned to death. One-third of them were children.

Two-thirds of all the victims perished in residence and apartment fires.

Read that over again. If anything can awaken the American people to the gravity of the fire problem, that brief statement should. If you have a strong stomach, think of those 10,000 roasted bodies. And then realize that at least eighty per cent of fires, big and little fires alike, could easily have been prevented.

It is a human frailty to read such a statement as this,

reflect for a moment on the horror of it, and then forget it with a mentally-made observation that "Well, my home is safe." Perhaps your home is. But there's better than an even chance it contains hazards that you don't know about.

An up-to-date house is not necessarily a safe house, from the standpoint of fire—many a \$50,000 mansion has gone up in flames. Expensive furniture will burn as easily as cheap furniture—and the finest interior fabrics and woodwork will burn as easily as a piece of cotton cloth and a pine board.

Whether you live in a four-room bungalow or a fifty-room country palace, inspect your property regularly, or have it inspected by someone who understands fire hazards and their prevention. Get the necessary information from your fire department or a similar institution. Once hazards are found, do away with them and make sure they don't reappear.

Help reduce the national human barbecue!

Observe Education Week

No observance in America is more significant than American Education week.

No institution has a more crucial responsibility for the future of American democracy than the public school.

No particular group should be permitted to control the schools and nothing should be permitted to quench the free flow of ideas in them—yet that is already the plight of the schools in certain communities.

Let us plan during American Education Week (which starts Monday) to so enlighten all the people, whether they have children in attendance or not, about the schools that they will not permit further inroads upon the freedom of teaching—also that they will force retraction of any existing restrictions.

Most of the public's attention recently has been focused upon political issues and the results of the election. Meanwhile, as usual, the schools of the nation have been quietly bearing a major share in the preparation of the nation's youth for the duties of citizenship—and to an increasing extent, they will be helping adults to be better citizens.

The topic for American Education Week this year is "Our American Schools at Work."

During this observance millions of American citizens will restudy the American schools.

A major purpose of Education Week is to induce the average citizen to investigate one of the world's largest businesses in which he is a stockholder with voting power.

We urge every one of the stockholders of this community to see for himself how the business of teaching our future citizens is being conducted and to find out how we may use our voting power and influence to improve them.

Statue Turned Into Bullets
The equestrian statue of King George III, torn down July 9, 1776, in the New York celebration of the Declaration of Independence was turned into 42,500 bullets.

GAIN A NEW COMPLEXION!

What a difference you will see in your complexion when you try Lady Esther Face Powder! For this powder does not merely calcify your skin—it beautifies and glorifies it.

Lady Esther Face Powder, first of all, gives you real color. It gives your face a beautiful glow—animation. Secondly, it gives your skin softness and smoothness because it is a super smooth powder. Only a very smooth powder can give your skin smoothness. Thirdly, it stays on for at least four hours. You don't have to keep on re-powdering. More than eight million women have found a new complexion in Lady Esther Face Powder. You will, too, once you try it. Get a box today and see what a difference it makes in your appearance.

LAKE VILLA

Fred Boyd of Round Lake was in town on business Monday.

Mr. and Mrs. Mocco and family of Waukegan visited the Oscar Douglas family over Saturday and Sunday.

Mrs. Larson, who is the mother of Mrs. Oscar Douglas, has gone to Fort Worth, Texas, to spend the winter months with her daughter, Mrs. A. Morgan Duke and husband. Mrs. Duke drove up for her mother two weeks ago.

Mrs. Lela Hole and daughter, Carol, of Shelby, Montana, and her sister, Mrs. Walter Larson and husband of Evanston, Ill., called on friends here last Friday. Mrs. Hole and her daughter drove through from Shelby. She will be better remembered as Miss Lela Glynn who formerly taught in our school.

Mrs. Saltzgeber entertained a number of the small friends of her sons, Tom and John at a Halloween party at their home last Saturday evening. Needless to say the children had a lively time doing the usual Halloween stunts.

The Bridge club met with Mrs. H. H. Perry at her home in Antioch last Thursday afternoon, and following the one o'clock luncheon, played bridge.

Mrs. Pedersen was awarded first prize, Mrs. Leo Barnstable second prize and Mrs. J. O. Hucker the consolation.

Rev. Stephenson of Chicago, who is the District Superintendent of churches of the Chicago Northern District, of the Rock River Conference, will be present at the morning service of the local church to deliver the sermon and the community is urged to make a special effort to give Rev. Stephenson a hearty welcome. Following the service, the first quarterly conference of the year will be held.

Miss Lorraine Hooper, a freshman at the University of Illinois, was home with her parents on Sunday, and Miss Elsie Swanson, who is taking a course in beauty culture in Chicago, also spent Sunday at her home. Mr. and Mrs. Hooper drove to Champaign with Lorraine.

Mrs. Albert Kapple entertained a few ladies at a party at her home last Saturday evening.

Mrs. Inez Manzer of Gurnee was a business caller here one day last week.

The German-American Society held a dance at the Village hall last Saturday night and had a splendid attendance.

Mrs. Wm. Weber visited friends in LaGrange on Monday.

Importance of Nose

The nose is a much more important organ than many people think, for its function of smell belongs to only a very small area in it, its real importance lying in the fact that it is the entrance to the lungs.

German Definition of "Lump"
German dictionaries define "lump" as ragamuffin, scoundrel, or low fellow.

Weight of Rain

An inch of rain on the average American house and lot has a total weight of 46.7 tons.
